Capitola, CA 95010

Dear Ryan,

On behalf of our Board of Directors, staff, clients and families served, I want to thank you for your in-kind donation to Easter Seals Bay Area. Your generous donation of 20 yards of mulch for our Kaleidoscope playground is greatly appreciated and important to supporting our After School Program.

For more than 30 years, the Kaleidoscope After School Program has been one of the most respected programs in the Tri-Valley, delivering essential services to families in need. There are hundreds of children living in the Bay Area with disabilities and special needs. These children face challenges that make it more difficult to engage in their everyday activities such as going to school, playing with their siblings, and interacting with their parents. The Kaleidoscope After School Program serves children with autism and other developmental disabilities (i.e. Down syndrome, seizure disorder, and cerebral palsy). These children and young adults rely upon Kaleidoscope to help them learn independent living, pre-vocational, and social skills. It is a place where they can also build lifelong friendships. Families depend on Kaleidoscope to provide a safe, stable, and nurturing environment for their child after-school and throughout the summer months.

We are grateful for your commitment to Easter Seals Bay Area and our Kaleidoscope After School Program.

Sincerely,

A handwritten signature in black ink, appearing to read "Susan Armiger".
